The vineyards of this family-owned, boutique Napa winery date back over 30 years. All of their critically-acclaimed wines come from their two estate vineyards, one in Napa's Atlas Peak appellation and the other in Monterey's Arroyo Seco. Winemaker Sam Baxter has helped Cobblestone garner numerous wine awards and ensures that while the winery maybe small, they are well known amongst wine lovers across the US and around the world. Enjoy six of these great wines perfectly paired with outstanding cuisine from the culinary team at Sam's, plus a special treat to end the meal. Radio personality and Cobblestone general manager P.J. Ochlan will join us as our special guest to discuss the wines and provide an insider's perspective of the winery.
